C O N S T R U C T I O N

The Veranda Shopping Center – Moorfield Construction, Inc.

DGC paving the parking lot at the Veranda Shopping Center.

This was a 30 Acre site for a new shopping center at Galaxy Way and Diamond Blvd. in Concord, CA. DGC performed all of the infrastructure work on this site in addition to the grading, rocking and paving work. This project was performed in three stages to accommodate the client's delivery schedule. The major quantities of work on this project included:

- 430,000 SF – Pulverize Existing Pavement
- 2,700 CY – Remove Existing AC Pavement
- 40,00 CY – Onsite Cut to Fill
- 35,000 CY – Load and Offhaul Exces Dirt
- 400,000 SF – Finish Grade Building Pads
- 4,000 CY – Excavate and Backfill Bioetention Basins
- 70,000 SF – Paved Temporary Acces Road
- 770,000 SF – Subgrade Roadway, Sidewalks and Driveways
- 32,000 TN – Load, Haul & Place Client-Furnished Aggregate Base
- 11,000 TN – Furnish & Place HMA Pavement
- 2,100 TN – Furnish and Place Porous Ashalt Concrete Pavement

DGC grading second phase of the parking lot while building construction is underway.

Partially paved parking lot at the Veranda Shopping Center.
